вјест:	(Telephone Conference - IF Amplifiers CONT (20-107)	
	1. On 19 May 1960 the writer telephoned	:
	to determine the progress made	:
	in the development and construction of two miniature IF amplifiers.	
	stated that the double conversion ceramic IF amplifier is	:
	now being packaged in final form and that it should be ready for	
	delivery as scheduled on 31 May 1960. The double conversion amplifier	
	consists of a 2.1 megacycle high IF amplifier, oscillator, mixer and	
	low 455 killocycle IF amplifier and will be packaged in a form having	
	low 455 kil/ocycle IF amplifier and will he packaged in a form having the following dimensions, $2^m \times 1.6^n \times .6^n$.	
	the following dimensions, 2" x 1.6" x .6".	
	the following dimensions, 2" x 1.6" x .6". 2. The crystal filter IF amplifier. originally constructed by
